## ***LONDON TRACKWORK INC. AWARDED CONTRACT FOR SPECIAL TRACKWORK FINCH WEST LRT IN TORONTO***

*August 2019 London Trackwork Inc. is pleased to announce that they have been awarded the supply contract for the Special Trackwork and switch machines for the Finch West LRT in Toronto, Ontario Canada. The contract will take 1 ½- 2 years to complete.*

*The Special Trackwork contract includes: R30 & R50 geometry turnouts with single & double crossovers & diamonds on the mainline and at the maintenance and storage facility. Following a competitive process, Mosaic Transit Group selected London Trackwork Inc. to provide the special trackwork and switch machines to the project.*

***The Finch West LRT project is Metrolinx's new 11-kilometre light rail transit line with 18 stops that will make commuting in northwest Toronto easier than ever before. Mosaic Transit Group is the contractor designing and building the Finch West LRT, which will be in service in 2023.***

***London Trackwork Inc., with personnel having over 40 years of industry experience, supplies many rail transit track components.***
